

**Feedback from Parents and Young People
Autumn 2016**

You Said	We Did
Where are the pictures of Wirral Children and young people?	We have added a photograph to the home page and the Youth Voice box. As we receive more photos we will continue to add them.
We don't leave feedback because the feedback button is not on the home page.	We have added a feedback button to the homepage and to every other page so it is easier to leave feedback.
The site is not tablet optimised.	The site is actually tablet and mobile optimised and should work well on all devices. If you are having trouble please leave feedback and tell us.
We want more videos.	We have a young man at Activate currently working on a video project with his drama teacher and the other people in his class. We also have Wirral Met College working on a video too. The SEND youth voice event will be filmed 28/10/2016 and uploaded to the site in Nov 2016.
A handbook of Disability rights is not on the website.	We have uploaded this from the Council of Disabled Children and it can be found in various sections of the site including Youth Voice and Parent Carer Voice boxes.
The search function is not very good it doesn't pick up all key words.	This is currently being further looked into and we will publish comments when we know more.
